

## Networking Committee

The goal of the Networking Committee is to provide an avenue to connect SWE-CI members

- We're looking for volunteers to join the Networking Committee. The goal of the Networking Committee is to plan events that allow SWE section members to grow professionally and socially.
- The Committee is responsible for planning 3 events per year that meet these guidelines.
- The time commitment needed for the committee is 5-10 hours per month and the busiest times of the year for our committee depend on the opportunities available (holidays, city events, company networking). You should join this committee if you have a passion for bringing people together over food and fun!
